Experience

PINT, Inc. - San Diego, CA

February 2017 - June 2017

Front End Web Developer

- Production front end developer focused on coding for WordPress, Joomla, and PINT's proprietary CMS.
- Collaborated with creative and development teams on the execution of ideas and projects.
- Translated designs to front-end code, estimated time and costs, and determined developer requirements and specifications.

NYC DevShop - New York, NY

June 2015 to January 2017

Front End Web Developer/Project Manager

- Key project leader managing front-end development of applications, liaising with clients to understand project objectives and prototype specifications, and collaborating with back-end developers to implement web solutions.
- Built custom front-end interfaces using Hamlet, Sass, and JavaScript / jQuery for web applications developed in Ruby on Rails.
- Garnered praise for providing valuable technical guidance and ongoing end-user support, approached by management to publish blog posts for company website and noted for enhancing corporate brand image as a Top 10 Web Development Agency.

General Assembly

January 2015 to May 2015

Web Development Immersive Training | Jr. Web Developer

- Rigorously learned the fundamentals of full-stack web development over 12 weeks through JavaScript, Ruby and numerous other modern web technologies.
- Built three full-stack web applications over three separate week-long sprints practicing agile methodologies collaboratively and independently.

Securityhunter, Inc. - Baltimore, MD

January 2013 to December 2014

Digital Marketing/Web Design

- Led redesign of Department of Defense website, including concept development, scope of work, SEO to increase web traffic, and brand awareness amongst target market.
- Managed integration, testing and initial training for Anti-terrorism/Force Protection (AT/FP) Physical Access Control Systems (hardware and software) for Department of Defense staff.
